Description

A very elegant Longwy enamelware service, dating from the Art Deco period (1920s-1930s), characterized by a superb stylized floral design in shades of pink and turquoise on a black background, enhanced with cloisonné and gilding. This emblematic piece from the Longwy manufactory perfectly illustrates the art of cloisonné enameling, with precise design and vibrant colors. The set features beautiful octagonal geometric shapes typical of the Art Deco style. It comprises: 1 matching tray, 2 cups and saucers, 1 milk jug, 1 covered sugar bowl, 1 coffee or teapot. The interior of the pieces is finished in light blue enamel with a crackled effect, characteristic of this production. In very good overall condition, with slight wear to the gilding, but no cracks or chips. A high-quality
