Description

Haute EPOQUE 16th cty Stunning, very heavy and rare brass embossed and chiseled alms dish. The mystic lamb facing right with its haloed head turned back. Other elements in this image include a banner fluttering in the wind and a chalice with blood. The creature is depicted surrounded by nature and is unequivocally a symbol that refers to Christ. 30cm diameter and... 969g weight

!!! Another important element is an iron piece which pierces the dish at its center and originally served to attach a wooden folk art statue, often very naive with rudimentary aesthetic.

Unfortunately, it is missing but possible to find (I have already had a few that I, unfortunately, sold separately...) Superb very early example, with a very nice original patina - not cleaned since... always ?!!! Bibliography: *Frederico
