### Description

These silvered bronze candelabra majestically embody the elegance of the Louis XVI style. They are distinguished by four light arms arranged around a central stem surmounted by a candle holder adorned with a removable flame pot. These arms are formed of finely sculpted scrolls and foliage. They support chalices with delicately chased, leaf-shaped candle cups, demonstrating exquisite goldsmithing. The fluted stem of these candelabra rests on a stepped, circular base decorated with a frieze of leaves and a garland of pearls. These richly decorated candlesticks with floral motifs feature elegant arms in a classic style evoking the luxury and grandeur of a bygone era. \*\*\*\*\*
