Description

A mobile pendant in 18k yellow gold (750/°°, owl hallmark) depicting an articulated teddy bear, reminiscent of vintage plush toys. Its rounded shape evokes the plush toys known as "Teddy Bears" at the beginning of the last century. All its components are articulated, allowing the head, arms, and legs to be tilted, thus recalling the construction of these toys and giving the piece a playful function. The jewel-like touch is provided by a cabochon-cut blue sapphire representing her nose, while a diamond is set in a constellation at the center of her belly as her navel. A delightfully childlike and playful piece! The pendant is shown here on a yellow gold curb chain, sold separately in our shop (reference ES20279). Estimated sapphire weight: approximately 0.10 carats. Estimated diamond weight: approximately 0.15
