Description

This pair of elegant Italian Art Deco bedside tables from the 1920s embodies the strong geometry and refined craftsmanship that characterized the early decades of modern Italian design. Their clean, architectural lines are softened by the warmth of richly grained wood, creating a harmonious balance between structure and ornament. Each table features a top drawer and a lower door, the latter adorned with striking geometric marquetry, a testament to the precision and artistry of Italian marquetry of the period. Resting on solid bases, the bedside tables have a commanding, sculptural presence, while the original metal fittings add a subtle decorative touch without detracting from the purity of the design. The interior offers practical storage space, making these bedside tables as functional today
