Description

An elegant decorative French porcelain plate, richly adorned with a hand-painted romantic design. At its center, a gallant scene depicts a couple in a bucolic landscape, finely executed in soft, nuanced tones. The rim is decorated with turquoise reserves and delicate floral motifs, framed by abundant gilding featuring scrolling foliage and rocaille-inspired ornamentation. The border, in a refined pale pink hue, enhances the overall design and accentuates the elegance of the composition. The finely applied gilding retains a beautiful luster with slight wear consistent with age. Diameter: 26 cm
