### Description

IWC Ingenieur 500,000 A/m (resistant to magnetic fields up to 500,000 amps per meter), reference 3808. Stainless steel case and bracelet. Anti-magnetic automatic movement, IWC caliber 37590 (modified ETA 2892/A2 base), niobium-zirconium alloy balance spring protected by a soft iron cage. Functions: central seconds hand and quickset date at 3 o'clock. Black dial with applied gold baton hour markers. Case design by Gérald Genta; very lightly polished model, screw-down case back and crown, smooth screw-down bezel, sapphire crystal, originally water-resistant to 12 ATM. Case and movement signed and numbered. Dimensions: 34 mm (excluding crown) x 40 mm, 7.5 mm thick (including crystal). Condition: very good. Perfect working order. 2-year warranty.
