Description

This table reminds me of a Guariche piece, though I can't be certain. It has a wooden top covered with cream-lacquered metal and tubular legs typical of the 1960s. The technique involves folding sheet metal onto wood, onto which four tubular legs, also typical of the 1960s, with small, slightly rounded feet, are attached. The table shows slight signs of wear. It's in its original, natural condition, which is what makes it so appealing. Please note that our furniture is sold unrestored and unprepared; you must accept the imperfections due to age. We do not ship this type of fragile item by mail, but we work with carriers; please contact us for a quote. This table is perfect for discerning individuals, dealers, or collectors. Sold as is. Please provide detailed photos. The photos are an integral part of the
