Description

Beautiful Louis-Philippe/Napoleon III period fireplace mirror, circa 1840-50. The handsome Louis XV Rococo-style frame, gilded with gold leaf, features a molded frame and its original mirror. Its size is very practical and particularly well-suited to modern apartments: it is large, but not too large. Ideal for furnishing a Parisian apartment, for example, above a fireplace or other piece of furniture. Our mirror and its frame have been cleaned by our gilder; it is clean and in excellent condition. Original gold leaf gilding.
