Height : 45,3 centimètres

Depth : 43,2 centimètres

Description

A large, heavy, cylindrical vase... Made of hot-blown crystal... And engraved with wheel-cut flowers... A frieze is entirely cut... In very good condition, except for a small chip on the lower part of the frieze... Some minor manufacturing flaws... And small scratches from use... All insignificant and barely noticeable... A unique piece compared to what we usually see... Likely a custom-made piece... From the 1900s... From the SAINT LOUIS crystal factory - FRANCE... Unsigned as it predates 1936... It has a beautiful ringing sound! Weight: 2.8 kg
