Description

CERAMICS / FOLK ART Workshops of MONTELLUPO, Tuscany, Italy, 17th century
Plate or small dish in MONTELLUPO earthenware, typical for its bright yellow background adorned in the back and for its amusing and naïve decoration of a rider holding a sword in each hand and "riding" his faithful steed. Good condition, without any restoration, and despite its 2 enamel chips on the edge at 2 and 9 o'clock (please check photos). Dimensions: approximately 23 cm diameter. This dish is part of a series of 4 similar pieces from the same collection that will be put up for sale in the coming days on my Proantic account. Possible discount in case of a combined purchase.*Documentation of other Montellupo dishes on the last 3 photos of this listing
