Diameter : 16 cm

Height : 16 cm

Description

Lovely ball vase decorated with weigelias by Gallé. A very beautiful vase, entirely acid-etched with rich vegetal decoration all around the vase. Leaves at the base, buds and weigelias flowers go up on this vase with the always sought-after ball shape. Note the very pretty colors, red and pinkish decor depending on the viewing angles on an intense honey background, characteristic of quality pieces by Gallé. I'll let you be the judge. This is no small model, 16 cm high and 16 cm in diameter. Perfect condition, signed "Gallé" on the side, circa 1900. Very beautiful piece, shape and color, fine quality, a little art-nouveau gem!
