Depth : 36

Description

Plant stand Secession - Art nouveau
Dimensions : Base: 36 x 36 cm, Height: 130 cm
Outside diameter : 31 cm Inner diameter: 25 cm
This exceptional plinth, made in Austria before 1910, reaches a height of 130 cm. It perfectly illustrates the refined elegance and exceptional craftsmanship for which the famous Viennese manufacturer is renowned. Dating from the late 19th and early 20th centuries, this plinth bears witness to Kohn's attention to detail, both in terms of shapes and proportions and the quality of materials. Whether used to showcase sculptures, ceramics or tableware, or as an architectural element in its own right, its majestic design lends sophistication and presence to any interior. We attribute it to J. & J. Kohn.
Style : Art nouveau
Materials & techniques : Beech
