Description

Gustave Helinck Gustave Helinck oil on canvas
Place du Bourg in Bruges Belgium 65 x 81 cm,
avec son cadre 75 cm x 81 cm. Beautiful oil on
canvas signed lower right by Gustave Helinck,
depicting La place du Bourg in Bruges, one of the
ancient city's most remarkable architectural
ensembles. The composition presents a lively
urban view, dominated by the majestic Gothic
silhouette of the town hall, with neighboring
historic buildings, in a typically Flemish damp
and luminous atmosphere. The artist here renders
the charm of old Bruges with great sensitivity:
post-Impressionist touch, moving sky, cold light,
square glistening with rain, silhouettes of
passers-by and silver reflections enlivening the
foreground. The brushstroke remains free and
lively, with a beautiful flexibility in the treatment

of both architecture and figures. The overall effect is discreetly poetic, part city scene, part travel souvenir, part atmospheric painting.
