

## Sumerian Steatite Profile Bust Of A Bearded Man

195 EUR

Period : Before 16th century

Condition : En l'etat

Material : Stone

Width : 1.75

Height : 2.75

### Description

Sumerian steatite bust of a bearded man, circa 3000 B.C. Superb little representation of a bearded man, sculpted not only as a bust, but also with great facial detail. Fascinating little piece from the Early Bronze Age. Provenance: New York gallery, itself from a Floridian collection assembled in the 1960s, acquired on the London art market. Certificate of authenticity and warranty included.
