Height : 82 cm

Depth : 59 cm

Description

? PRESENTATION AND EXCEPTIONAL PROVENANCE
Galerie Les Merciers is offering for purchase a homogeneous and rare set of ten chairs from the "Chair One" model. In addition to the strength of its design, this suite is sublimated by a first-rate museum provenance: it comes directly from the outdoor fittings of the Musée du Louvre in Paris. Having welcomed the international public on the terraces of France's most famous cultural institution lends this lot an undeniable historical dimension. The original signatures ("CHAIR_ONE Konstantin Grcic" and "MAGIS MADE IN ITALY") are formally molded into the structure of each seat.
? HISTORICAL ANALYSIS
Created in the early 2000s (2003-2004), the Chair One marks an architectural breakthrough in furniture design. In

it, Konstantin Grcic deconstructs traditional volumes to propose a reticular structure inspired by geodesic domes. The seat, forming a three-dimensional skeleton in cast aluminum, offers total visual transparency. This technical feat means that a set of ten chairs never visually obstructs the space, while guaranteeing rigorous ergonomics. ? DETAILED TECHNICAL

SPECIFICATIONSQuantity: inseparable suite of 10 chairsCategory: Seating / Collection Chairs

(Indoor / Outdoor)Style: Contemporary / Industrial DesignEra: 2000sDesigner: Konstantin GrcicPublisher: Magis (Italy)Materials: Die-cast aluminum seats, lacquered (off-white color).

Anodized aluminum profile legs. ? CONDITION REPORTThe entire suite is in a good state of structural preservation, offering perfect stability.

In keeping with their prestigious provenance and extensive use on the terraces of the Louvre, these chairs display a pronounced, authentic patina of use. The off-white lacquer shows chips, wear and rubbing on the sharp edges of the geometry, revealing the underlying raw aluminum (see detail photographs). Far from constituting a defect, this homogeneous cosmetic wear bears witness to their Parisian history and lends them a highly desirable industrial character for collectors and specifiers. ?
