Description

This magnificent tapestry having benefited from a thorough cleaning, and to a meticulous check by our experts in our Atelier artisanal. It is now ready to adorn your home. A Masterpiece from Atelier Tabard. Animal scene: at the heart of the composition, the work captures a snapshot of wild nature. The heron, depicted with great precision, is not simply posed at the water's edge: it holds a frog in its beak that it has just hunted. this detail brings a touch of narrative realism and life to this bucolic landscape. Symbolism: In tapestry art, the representation of hunting (even animal hunting) often symbolizes the balance of nature and adds a "genre scene" value that enhances visual interest over purely vegetal greenery. Origine : Aubusson, France (Atelier Tabard). Dimensions : Height 170 cm x Width
