Chest Of Drawers, Louis XVI Half Moon, In Marquetry, 19th Century

1 180 EUR

Period : 19th century

Condition : Bon état

Material : Wood marquetry

Description

Louis XVI marquetry half-moon chest of drawers, breche marble top
Elegant Louis XVI style half-moon commode in precious wood veneer with geometric marquetry decoration arranged in butterfly wings. The curved front opens with 5 central drawers framed by two arched side doors, revealing interior shelves. A drawer in the waist completes the set. The cabinet is adorned with an inlaid frieze running under the top, as well as decorative bronzes: keyways and draw rings. It stands on four tapered legs finished with small bronze sabots, characteristic of the Louis XVI style. The top is topped with a superb breche marble in yellow and pink tones, thick and perfectly fitted, bringing a very beautiful decorative effect. French work from the XIXe century in the Louis XVI taste. Very good overall
