Description

Exceptional and very rare table by Michel Mangematin. One-piece bronze tripod base. This is the large model with a very thick glass top, 150 cm in diameter and 72 cm high. Only 2 examples of this model have been recorded. A graduate of the Ecole Supérieure des Beaux-Arts de Paris in 1957, Michel Mangematin spent time in the United States, where he worked with Frank Lloyd Wright and Ludwig Mies van der Rohe. Known for his architectural work, he left behind very few furniture objects of his own creation. This highly refined table is a sure sign of his success in the U.S., where he worked with the great names in architecture. Iconic model!
