Description

This pair of antique candlesticks reflects the elegance of 19th-century French styles, particularly those of the Louis-Philippe period. Crafted from patinated bronze (the dark parts) and finely chased gilt bronze. They feature a tapered columnar shaft resting on a triangular base adorned with rich scrolls and acanthus leaves. The upper part ends with a capital that supports the candle holder, also decorated with floral motifs. Condition as per photo. I'm also on Instagram: "mercantedarteroma"
