Description

Scandinavian sofa designed by Svante Skogh - 1950s-1960s Superb 3-seater sofa with an elegant, timeless Nordic design. Its solid oak structure, fully restored and sublimated by a waxed finish, reveals all the nobility of the wood. It's the perfect complement to a Scandinavian sofa. A particularly striking feature is the subtle marriage of oak and leather straps, visible on the backrest and seat. This interplay of materials, both aesthetic and structural, brings rhythm, authenticity and character to the piece, while underlining the quality of the workmanship. At the same time, the backrest and seat are made of leather. Fully refurbished seat and back:- new foams for optimum comfort- new upholstery in thick wool, warm and resistant Sober lines, finely drawn backrest and armrests, typical of 1960s
