Description

An elegant carved bronze candlestick with a golden patina, created by artist and designer Pierre Casenove. This piece, emblematic of the artist's poetic brutalist style, depicts a stylized bird with organic lines, its body soaring upward. The textural quality is characteristic of Casenove: a dynamic surface that catches the light. The work reflects the aesthetic of the 1980s and 1990s, blending utilitarian design with animal sculpture. Signed on the base. France, 20th century
