Description

Chased bronze and gilt mercury thatched clock in matte and bright, enamel dial and original movement, with wire. Empire-Restauration period, early 19th century.Our clock is a highly original and interesting model, in the shape of ahut, with tree trunk columns and thatched roof.thatched roof. This sheepfold is populated by a lamb and small birds. The pendulum is in the shape of a butterfly with its wings outstretched.Very fine quality bronzes, mercury gilded in matt and bright, very finely chased. A truly charming model, particularly rare.A truly charming model, particularly rare.The clock is overhauled and working. Very good overall condition, superb, extremely fresh gilding. On the branches of the columns, fixing holes suggest that there were birds, perhaps missing or perhaps
