Depth : 13

Description

1960s Poliarte Colored Glass Wall Sconce / Appliqué
Elegant wall appliqué by Poliarte, produced in the 1960s. The piece features a dynamic abstract composition made of numerous hand-blown Murano colored glass elements: transparent and amber glass rods intertwine in a sophisticated play of volumes and transparencies, creating a striking luminous and sculptural effect. The design is quintessentially 1960s, with strong modernist influences and an aesthetic reminiscent of the artistic research of that era. It functions beautifully both as a light fixture and as a genuine wall sculpture. Dimensions: [insert actual dimensions]

Condition: Excellent vintage condition, with minor signs of age consistent with the piece.

Electrification: To be checked / already wired for
