### Description

An elegant female profile portrait, painted in oil on panel, depicting a young noblewoman wearing a Renaissance-style headdress and dress against a dark background. The work is clearly inspired by the models of the Italian Quattrocento (Florentine school), with particular attention to the idealized profile, hairstyle, and clothing details. We believe it may belong to the Neo-Renaissance artistic production dating from the late 18th century to the first half of the 19th century, which was widespread at the time. 23x17 cm, panel only 35x29 cm, including frame.
