Description

A magnificent mid-twentieth-century De Sede pouffe, model DS-11, and, as an option, the matching DS-66 recliner. Made in Switzerland, it is upholstered in the brand's emblematic high-end brown leather. Renowned for its exceptional hand-crafted finishes and luxurious comfort, the DS-11 perfectly illustrates the craftsmanship that has made De Sede one of Europe's most respected leather furniture manufacturers. The pouf features a generous, plush seat with natural folds and a warm patina acquired over time; subtle marks of use that underline the authenticity and character of the piece. Its low, uncluttered profile and sturdy construction make it a versatile addition to any interior, whether paired with a matching De Sede lounge chair or used on its own. A timeless example of mid-twentieth-century Swiss design,
