19th Century Bronze Embossing Iron

280 EUR

Period : 19th century

Condition : Très bon état

Material : Bronze

Length : 24 cm

Description

Rare and superb 19th century broze embossing iron. This utensil was used to give relief to fabrics to give them the shape of a leaf. Used to make silk and fabric flowers, the mold and die are finely chased. A rare and original folk art object in perfect condition.
