## Hardwood Medallions With The Profile Of Napoleon III, Attributed To François Lepage

150 EUR

Signature : François Lepage

Period : 19th century

Condition : Très bon état

Material : Solid wood

Diameter : 11.3

### Description

After the medals of Jules Constant Peyre, made of heated wood pressed according to the patent of François Charles Lepage (1803-1868); patent registered in 1856. The Bois Durci factory was patented in Paris in 1856 by François Lepage and was made by mixing very fine sawdust, usually ebony or rosewood, with albumen -the sticky substance found in blood or eggs- and combining the two in a steel mold under heat and pressure. 11.3cm diameter
