

Hussard Officer's Belt Late 18th Consulat Empire

2 200 EUR

Period : 18th century

Condition : Etat d'usage

Description

Leather belt embroidered with silver thread. Golden brass lion-head buckles with snake-shaped fasteners. The two saber lines are present with their buckles. A sabretache hanger is also present, with a counter strap, which suggests that the sabretache attachment system was of the same type as the saber hanger. The leather is broken, but not fractured. This is a fragile period item. Please feel free to ask any questions you may have.
