Description

This famous and beautiful vase from the "30s" by Aletiers René Lalique has all the majesty of the famous Master glassmaker's creativity, a slender piece surrounded by gradual volutes in compressed and frosted glass. Its remarkable graphics make it iconic and this successful prestige piece, which has been reissued many times, nevertheless remains a rare piece from the period of its creation, which is the case for this beautiful piece with five progressive volutes in opposition on a moving body of curved beams. An unusual piece signed under the sole by René Lalique and not Lalique France, which makes it even rarer. It has been used and the sole retains traces of fine scratches and there may be some slight opacity which in no way detracts from this fine collector's piece . Price up to 2000 euros ;
