Description

Antique Louis Philippe Biscuit-Shaped Table in Mahogany
An elegant antique table in the Louis Philippe style, crafted from fine mahogany and dating from the mid-19th century. The finely veneered, biscuit-shaped top features a warm natural grain that highlights the quality of the wood and the refined craftsmanship. The table rests on a turned and carved central shaft, which extends into a solid base with four curved legs, richly carved, typical of the Louis Philippe aesthetic. Its harmonious proportions and soft lines make it a piece of furniture of great elegance and versatility. Perfect as a coffee table, living room table, or entryway table, it is ideal for classic settings, studies, period living rooms, or formal interiors. An authentic piece of great historical and decorative charm.
