### Description

A striking floor lamp attributed to designer Toni Zuccheri, made in Italy around 1970. The structure consists of three cylindrical chrome-plated metal stems of varying heights, each topped by a Murano glass sphere featuring a grid pattern, typical of Murano glass production from that period. The glass, of exceptional artisanal quality, diffuses a warm, enveloping light, creating an elegant play of reflections. The circular metal base ensures stability and balance for the entire piece. A piece with a strong decorative impact, combining sculptural design and functionality, ideal for modern, vintage, or formal settings. In excellent overall condition, with slight signs of aging consistent with the period of production.
