Description

Very beautiful glass plate stereoscopic view format 8.5 x 17 cm Pompeii panorama, Italy The Ferrier et Soulier company was founded by Claude-Marie FERRIER (1811-1889) and Charles SOULIER (1816-1886) in 1859. It specialized in the production of stereoscopic views. Soulier's plates depicted a variety of subjects, including landscapes, monuments, urban scenes and historical events. Stereoscopic glass plates were considered high-quality products and aesthetically superior to paper stereoscopies. They were heavier and more fragile, but offered better image quality and a more immersive visual experience. The works of Ferrier and Soulier are today considered collector's items.
