Description

Adolphe Roger (1800-1880) Still life with a bouquet of flowers Oil on canvas signed and dated 1869 on the entablature lower left Dimension: 46 x 37.5 cm Dimension with frame: 63 x 55 cm Elegant floral still life, typical of the refined aesthetic of the Napoleon III period. This delicate composition features a bouquet of freshly cut flowers - roses, camellias and foliage - arranged naturally on a carved entablature. In the background, a potted plant enriches the depth of the scene, in a harmony of warm brown tones. The meticulous workmanship of the petals, the finesse of the gradations and the mastery of light bear witness to an experienced painter.
