Description

Saint John the Baptist is depicted in
his traditional iconography, sculpted in limestone that has retained
its polychromy.
With his right hand, the Saint points
to the Mystic Lamb, which he supports on a book resting in his left
hand.
The expression is gentle on a face
framed by flowing, shoulder-length hair. The folds of the garment
covering the sheepskin tunic that Saint John the Baptist wears next
to his skin are beautifully rendered.
The pose is classic, but the sculptor
has created a generous work, imbued with a sense of peace.
