Four Industrial Metal Chairs From The 30s And 50s

450 EUR

Period : 20th century

Condition : Très bon état

Material : Silver metal

Description

Four antique metal industrial chairs dating from the 1930s to 1950s, characteristic of French utilitarian furniture of the period with its bent tubular steel structure and pressed sheet metal seat and back, designed for intensive use in workshops, schools or administration.Its sober, functional and unadorned design is in keeping with theindustrial style aesthetic close to Tolix or Mullca productions, while featuring a rougher, unsigned fabrication, suggesting workshop or mass production.The beautiful original patina, with traces of use, reinforces its authenticity and decorative appeal in a contemporary or loft-style interior.
