Description

Park fence gate forged with spearheads and inverted scrolls, ringed at the bottom, made in the 19th century, in good condition. It is made up of 8 elements, 172 cm long and 166 cm high, two of which are shaped to rest at a height of 185 cm on a wall at the ends or in the center on the gate pillars. The diameter of the bars is 18 mm. Six posts fitted with struts, some of which need to be extended for sealing and restored, complete the fence. A few minor restorations are to be expected, as this lot is sold as is. You can visit our website: www.claudeaugustin.com
