Description

A. Guevenne - Scène orientaliste animée au camameau - Oil on canvas - mid 20th centuryLarge oil on canvas signed, depicting an animated Orientalist scene.The composition features a camel loaded with merchandise in the foreground, accompanied by a group of figures in traditional dress. In the background, typical Maghreb or Middle Eastern architecture (fortified tower, arcades, whitewashed walls) structures the space, while a herd and market bustle bring life and movement.The light palette, dominated by luminous whites, ochres and blues, evokes a warm, dry light characteristic of twentieth-century Orientalist scenes. The brushstroke is free, slightly impastoed, with interesting work on the materials.Signed lower right.Dimensions:Canvas: 81 x 60 cmMounted on
