Description

This rare 19th-century English military hospital bed, made by an unknown craftsman, is a remarkable example of historic craftsmanship. Recently reupholstered in high-quality leather, it is perfectly functional, with all its mechanisms working correctly. The wooden structure has been carefully maintained and treated, preserving its original character while showing signs of wear in keeping with its age and use. Its adjustable design reflects the practical design typical of military hospital furniture of the period. A truly unique historical piece full of character. Dimensions: Height: 68 cm (adjustable) Width: 65 cm Depth: 190 cm Condition: Recently reupholstered in high-quality leather. In good working order, showing signs of wear consistent with its history.
