Description

Oil lamp. Bronze. 18th century. Oil lamp with multiple light sources, featuring a series of maintenance elements suspended from chains. The round base features a raised rim designed to prevent impurities from falling onto the surface where the lamp is placed. It has a central axis that begins with a salomonic column, vase-shaped forms and a two-headed eagle finial, following ancient models in both form and decoration. - Dimensions: 20 x 20 x 85 cm
