

19th Century Silver Chandelier

1 300 EUR

Period : 19th century

Condition : Très bon état

Material : Silver metal

Diameter : 39 cm

Height : de la base au crochet 63 cm

Description

We offer for sale this curious chandelier entirely silvered and not common at all, it is in Louis XVI style second period of the 19th century. Four lights, formerly it worked with candles, it has been very cleverly electrified. Everything is silvered, including the chains and the top hanging. Very good condition, it would need to be revived to make it shine more, but it's not bad. Port extra (E26)
