

Molded Ebonized Wood Frame. Netherlands. 17th Century

1 800 EUR

Period : 18th century

Condition : Bon état

Material : Painted wood

Width : 50 cm

Height : 40 cm

Description

Elegant mirror, with mirror on the reverse, in molded ebonized wood, of great sobriety and marked refinement. It features a succession of raised moldings that create a play of layered planes, alternating smooth surfaces with others carved into waves or scrolls, hence its name. The result offers visual dynamism without forgoing a balanced aesthetic.
