Description

A refined expression of 1920s French Art Deco, this occasional or coffee table combines geometric clarity with the warmth of richly grained wood. Its two-tiered circular structure reflects the period's fascination with symmetry and architectural balance, while its sleek vertical supports lend it an understated sculptural presence. Recently restored, the table reveals the full depth of its color and the quality of its craftsmanship. Its polished surface enhances the natural movement of the wood and restores the elegance intended by its creator. Compact yet visually striking, it fits perfectly next to an armchair, between two armchairs, or as a low centerpiece in a more intimate space. Its proportions and understated elegance allow it to harmonize with modern and vintage-inspired
