in the Ecole des Arts Appliqués in Reims in 1938 and then became a decorator painter in his own workshop. The two men met after war and created their own society "Votre Maison" where everyone had a precise function : Guillerme created, Chambron did the commercial part and Emile Dariosecq, cabinetmaker, manufactured furniture. The success was quick and they create a large diversity of low-cost furniture with the use of characteristical materials and techniques of the society as the waxed oak, a light hue of the wood or a dark hue obtained thanks to the iron oxide. Armchairs and sofas were realized on a same model with worked back, a waxed wood and a thick cushion for the seat. In the 1970's, the society was taken up by the son of Chambron who realized his own creations.
