### Description

Important Vienna bronze, Polychrome pheasant (33 cm) Large, elegant Vienna bronze depicting a pheasant, crafted in cold-painted bronze. This piece stands out for its generous dimensions (33 cm long by 17 cm high), which is well above average for this type of production. The chiselwork is very fine, with a very fine finish. The chasing work is particularly meticulous: the plumage is finely detailed, with beautiful polychromy in red, brown and dark shades, typical of Viennese workshops of the late 19th - early 20th century. The dynamic, realistic posture of the animal, combined with the quality of execution, makes this a decorative piece of choice, as much for a collector as for a refined interior. Features: Origin: Vienna (Austria) Era: late 19th - early 20th century Material:
