Description

This contemporary ring combines a band-like volume with a fluid twisting movement. It undulates in three dimensions, both horizontally and vertically. This movement creates an overall visual effect of a knot, adorned at its center by a line of brilliant-cut diamonds, whose increasing and decreasing shape enhances the volume. The fluidity of the movement creates particularly luminous reflective effects within the ring, sublimated by the yellow color of the gold (750/°°, 18 KT, eagle head hallmark). A sculptural, fluid, organic ring, whose soft lines and volume are perfectly adopted for everyday wear. Total diamond weight estimated for approximately 0.30 ct Gross weight: 9.27 g Finger size: 54 and a half - can be modified at your convenience by our workshop, sizing offered
