

Mmaculate. Huamanga With Gold Highlights. Viceroyalty Of New Spain. 18th Century.

4 500 EUR

Period : 18th century

Condition : Bon état

Material : Stone

Width : 40 cm

Height : 33 cm

Description

A fully Baroque composition with a vertical axis marked by the figure of the Virgin. She stands on a mass of clouds populated by cherub heads and dynamic angels that lend movement to the image. The work retains remnants of gilding all over its surface. In the Hispano-American world, polychromy was an essential part of artistic creation, bringing increased decorative richness and intense gilding.
