Description

Superb folding pedestal table in black lacquered wood, richly adorned with gilded Japanese-style decoration.The circular top features a finely executed scene inspired by the Far East, with figures, pagodas and landscapes, testifying to the taste for chinoiserie in the 19th century. The delicately worked decoration offers great finesse of detail and beautiful visual depth.The tilting top allows the table to be transformed into a vertical decorative element, fully enhancing the composition.The tripod base, elegantly curved and mounted on castors, is also adorned with gilded motifs in perfect harmony with the top.Both functional and decorative, this piece will add a refined, exotic touch to any interior.Materials: lacquered wood, gilded decorationEra: 19th centuryDimensions:Height:
