

Uneviscerated Ostrich Egg, Fossilized

135 EUR

Period : 20th century

Condition : Parfait état

Material : Other

Description

It could have been in Sherlock Holmes' office, imagine how rare, extremely rare it is to have an uneviscerated ostrich egg. The contents, totally mummified, dried, petrified, fossilized resonate in its shell. The latter, intact, is very granular, another peculiarity... What do you think? my dear Watson?
