

Pair Of Candelabra With Double Transformation Louis XVI Period

900 EUR

Period : 18th century

Condition : Bon état

Material : Bronze

Description

Description: Gilt bronze. This charming pair of candelabra, of provincial workmanship, is characterized by a central flame that appears when the finial is inverted. Furthermore, the three flames are housed within the socket of the central stem, which becomes a torch. Therefore, this pair of lights can be configured with two, six, or eight flames. This design is typical of the Ancien Régime, during which objects were used in various ways and thus could be modified. Sometimes, a candelabrum could also be created from existing torches. Condition: Very good condition, classic 19th-century restoration, including replacement of the threads (due to oxidation), replacement of the counter-cups (damage?), and re-gilding. Slight wear to the bright gilding. Dimensions: Total height: 41 cm,
